and many more!

Your  
personal  
business card  
scanner

**The IRISCard Mini 4**  
is the most intuitive and personal business card solution.

# IRISCard<sup>™</sup> mini 4

*for Windows & Macintosh*

**Export to Outlook, Outlook Express, Palm, Pocket PC and Address Book!**

# IRISCard™ mini 4

Business cards are automatically retyped

**1 Scan your business cards.**

**2 Manage your contacts.**

The IRISCard™ quickly scans your paper business cards, captures the information they contain and instantaneously creates electronic contacts to be sent to your favorite contact manager, such as MS Outlook, etc.

### Efficient greyscale scanner

Fast. Portable. USB powered. No batteries are required.

### Quickly export your contacts

Send your contacts to MS Outlook, MS Outlook Express Address Book, Palm Desktop, Pocket PC, etc.

### Multiple cards scanning

Scan and automatically recognize up to 10 business cards with your existing flatbed scanner.

### Easy export to Excel

Use your contacts in Excel to organize mail merges, search and sort your contacts, etc.

### 217 countries supported

Capture all the information from business cards coming from all over the world. Wherever you go, you are covered!

### Skype support

Launch Skype calls in one single click, directly from the IRISCard

*The features of the Mac version differ from PC version. All technical specifications are available on our website [www.cardiris.com/compare](http://www.cardiris.com/compare)*
